Subject: Lynn

I talked to Tony and Packman tonight and they tell a quite different story than you get from Lynn.

1. Lynn accused my men of using a blow pipe to extract cages. Tony says it was bent probably from the git go, although he can't prove it. He said it was not uses to pry cages. They have a tool for that. Lynn can't prove how it was bent.

2. Lynn, today, repeated in front of some of the men that the guys on the ground, Packman, Kelvin and Harvey were not working hard enough and he would fire the "son of bitches" and get new crew in in a flash.

Cale, is this what you want? Why would he continue to harass these guys on the ground...the best he has...if not condoned by GE? We have discusses this before.

3. Tony says Lynn will not talk to him..just snap at him with no respect. Tony is holding his tongue. But, I told Tony he does not have to take this crap from Lynn. Example, Tony says he has a little room to do timesheets and paperwork and twice today Lynn came in and he was reading the newspaper. The next time he went in Lynn had thrown his piper in the trash.

4. Packman says the men's moral is not low, but Lynn has had his racist comments and attitude from day one. Of course the men resent it very much since he doesn't hide his views on working blacks. I left a message two days in a row for Lynn to call me. Nothing.

YOU ARE RIGHT. THIS JOB CANNOT CONTINUE THIS WAY. TONY WILL DRAG AND WHEN HE DOES ALL HELL WILL BREAK OUT.

Tony is committed to continue until the end even after today. Packman and crew are committed to the end.

You have been defending Lynn from the start but now is the time to open your eyes.

YES WE DID HAVE AN OTHER UNIT TO REDO. TONY THINKS IT WAS THE LAST BEFORE PACKMAN TOOK OVER THE CLAMPS. I SURE HOPE SO BECAUSE THAT MEANS "NO MORE LOOSE CLAMPS".

Have we failed in some areas. YES. Do we need to be put down **to** make a TA look good. NO.
